I'm Steve. Sometimes the cure is in prevention.

I've supported cancer research for years, and I've often wondered when they would find a cure. A few years ago I changed my thinking. When I turned 50, I talked to my doctor about a colonoscopy. He scheduled it at my hometown hospital. I thought I might feel embarrassed, but soon I was grateful. They found a walnut-sized polyp that was precancerous. They removed it, along with a small section of my colon. Now I prevent colon cancer with an annual screening. I've shared my story with our local newspaper, and it's inspired others to get screened, too.

We **save lives** and create more birthdays by helping you stay well, helping you get well, by finding cures, and by fighting back.

cancer.org | 1.800.227.2345

tournament play; 24 hour advance reservation required

I'm Marcey. I didn't have family close by who could help.

The first thing I needed was help getting to treatment. The cab fare would cost a lot over time. The bus ride is bumpy and hurts my back. My oncologist referred me to the American Cancer Society Patient Navigator. She arranged for volunteer drivers to take me to chemotherapy winter through spring, and during radiation from spring until summer. My drivers were so nice. They picked me up at my door and made sure I was comfortable. On my last day of treatment my driver brought me cupcakes – chocolate with white frosting and sprinkles. We celebrated! Having someone there makes all the difference.

We **save lives** and create more birthdays  
by helping you stay well, helping you get well,  
by finding cures, and by fighting back.
