

I'm Marcey. I didn't have family close by who could help.

The first thing I needed was help getting to treatment. The cab fare would cost a lot over time. The bus ride is bumpy and hurts my back. My oncologist referred me to the American Cancer Society Patient Navigator. She arranged for volunteer drivers to take me to chemotherapy winter through spring, and during radiation from spring until summer. My drivers were so nice. They picked me up at my door and made sure I was comfortable. On my last day of treatment my driver brought me cupcakes – chocolate with white frosting and sprinkles. We celebrated! Having someone there makes all the difference.

We **save lives** and create more birthdays by helping you stay well, helping you get well, by finding cures, and by fighting back.
