I'm Terri. My clinical trial and Hope Lodge are keeping me alive.

I had to have part of my liver removed, followed by chemo and radiation. During that treatment, I stayed at Hope Lodge for nine weeks. It was wonderful! Who says that about cancer treatment? Now my best bet for survival is a clinical trial. Hope Lodge makes that possible. The staff and guests wrap me in the warmth of fellowship, love, and understanding. We share potluck dinners – I make beef, pork, or fish tacos. It reminds me of my family, who are so far away. It's such a haven from the storm. I know for certain Hope Lodge is helping me stay alive.

We **save lives** and create more birthdays by helping you stay well, helping you get well, by finding cures, and by fighting back.

tournament play; 24 hour advance reservation required

I'm Sandy. My family has had too much cancer. I want my voice heard.

First, I lost my grandfather to cancer. Then my father died of brain cancer. He didn't get to see my first son grow up or even meet my second son. I've been a team captain, a co-chair, and a chair for our Relay For Life. Now I fight back against cancer by being an advocate. I tell my elected officials that we need to fund cancer research, protect people from tobacco, and make sure everyone can get cancer screenings and good health care. Nothing beats talking to my legislator and seeing "the light go on." We're making progress against cancer, one law at a time.

We **save lives** and create more birthdays by helping you stay well, helping you get well, by finding cures, and by fighting back.
